### The practices of citizen engagement of young people promoting participation

Observation course organized by ARCI Sud Sardegna (South Sardinia) with the clubs “Il Calderone”, “Memoratu”, “Fabbrica del Cinema” and the NGO “3P- Piccoli Progetti Possibili (Small Feasible Projects)”

## THE HOSTS

### **ARCI SUD SARDEGNA - CAGLIARI**

ARCI Sud Sardegna is a second level Committee, because its members are not individuals, but only associations to which it offers assistance and support for their activities.

Our Committee is currently formed by 16 associations with around 1.500 members. Our 16 associations are involved in various cultural and social sectors (ballet and dance also for children, gentle gymnastics for adults, cinema, theater, drawing, computer literacy for the aged people, linguistic qualification for migrants, etc.). ARCI Sud Sardegna is also involved in many initiatives and campaigns for environmental sustainability and the fight against climate change, for food sovereignty and the circular economy.

In the last year, due to the pandemic, the associations have also created assistance services for lonely people and people with disabilities.

ARCI Sud Sardegna is finally part of the ARCI Sardegna Regional Committee.

### **IL CALDERONE – SANT'ANTIOCO**

The association ARCI Il Calderone was officially founded in 1988 and its first main goal was to promote theatrical practices. In the following years Il Calderone extended its intervention scope including intercultural, cinema activities and promotion of cultural-historical heritage.

### **LA FABBRICA DEL CINEMA (CINEMA FACTORY) - CARBONIA**

The Fabbrica del Cinema is a multifunctional cultural center of Memory and Audiovisual Culture, a film library, a museum, a production and archives center, whose work is focused on three main aspects:

- Collection, preservation and conservation of the historical and social audiovisual memory of Sardinia;
- Production of new audiovisual memory;
- Diffusion and promotion of memory and audiovisual culture.
- Based in the building of the former direction of the Grande Miniera di Serbariu (*the big mine of Serbariu*) in Carbonia, the project started in 2015 and is developed and curated by the Centro Servizi Culturali (*Cultural Services Center*) di Carbonia of the Società Umanitaria (*Humanitarian Society*).

Over the years, the activities of training and promotion of audiovisual culture have managed to involve thousands of people, in particular the younger generations.

### **MEMORATU - CAGLIARI**

Memoratu is an ARCI Association created in 2017 by a group of youngsters who had previously participated in an Arci project, called "Promemoria\_Auschwitz". Its activities involve sardinian youngsters, mainly students from high schools and universities. Most of the work is related to "Promemoria\_Auschwitz", a project that promotes active citizenship and practical involvement of young people in their community's life.

By organising conferences and seminars, also in collaboration with other local associations and institutions, Memoratu aims at empowering youngsters and tries to encourage them to become central and active figures in their cities and communities.

### **3P – PICCOLI PROGETTI POSSIBILI ONG (SMALL FEASIBLE PROJECTS) - GUSPINI**

Piccoli Progetti Possibili, also called 3P, is a Italian NGO born in Sardinia in 2006. The idea started from the cooperation between a group of volunteers and the Archidioces of Pala (Tchad) for the realisation of an Agricultural University in Sieké trough the cooperation with University of Sassari (Sardinia). Since 2006 the NGO implemented projects both in Italy and abroad, involving a network of more than 100 volunteers in Italy and even more abroad: the aims is to create bridges between small territories. We implement inclusion, livelihood and education projects involving youth and women both as beneficiaries and as implementers.
